

A DOG'S WHEEL OF LIFE

The 9 Ingredients needed to develop and maintain the happiest, healthiest dog-human relationship possible

Human Grade Fuel

Includes high quality protein, fruits, vegetables and fats. No sugar, processed grains, fillers, by-products or artificial anything.

Play

Teaches appropriate social and problem-solving skills, relieves stress, and develops impulse control.

Socialization

Teaches appropriate social skills, impulse control and builds confidence.

Health Care

Preventative and up-to-date health care saves time, money and improves quality of life.

Quiet Time

Getting away from it all. Restores energy and reduces stress.

Education

Teaches life's boundaries and rules for safety. Improves physical and mental health.

Exercise

Relieves stress and promotes mental and physical health. A perfect remedy for the blues!

Rest

Undisturbed sleep rejuvenates and restores energy.

Employment

Hunting games like "find it" and hide-n-go seek are awesome!
"if you don't give a dog a job, they become self-employed as gardeners and home decorators!"

Food and Play and Socialize
Quiet Time and Exercise
Give your dog a Job to do
And lots of Rest when days are through
Train with Love Respect and Care
And see your Vet throughout the year
